The Elden Ring is a fantasy action role-playing game (ARPG) being developed by Toys For Bob, a popular game development studio from Seattle, WA, USA. Set in a fantasy setting in the Lands Between, the story centers on a young man who left his hometown, and is now on a quest to become an Elden Lord – a member of an elite class of adventurers who serve the Tower of God. With seamless fantasy landscapes (vast open fields and deep, mysterious dungeons), the game features a unique fantasy world with a post-apocalyptic backdrop. Players can enjoy the entire adventure as they read through the text in a fully voiced script, and can make their own choice in how they play their character. The player can customize their character appearance and class, or develop their character according to their play style. The player can take on quests on a per-stage basis, and can visit and talk to other NPCs to complete tasks and find items. Players can interact with other players by directly connecting with them at their base of operations, and they can also send and receive requests for items. They can go on journeys with NPCs that will open up the world map. Armed with their powerful gear and the play style they've chosen, players embark on the adventure of an Elden Lord through the Lands Between. The Prayer of Saint Francis This prayer belongs to the traditional and it is said that the Pope used to pray it at Mass; it comes to us through two different sources. I have to thank Mr. Edward T. Newman for the discovery of another source of this prayer. He has found a manuscript in which there is the adaptation of part of the common prayer of the Church and very interesting, for us, to know the language and the thoughts of the people of the Middle Ages. Dots. It was a title that was supposed to excite people, and I'd say it did just that. However, when it comes to being a true platformer, it doesn't quite hit the mark.
