It is open in the daytime, but closes at night. This is an important point, as there is a special structure called the “Dawngate” which you will need to open. You enter the Dawngate through the eastern gate; you will begin entering it when you unlock the gate for the first time. You first meet with Wandering Guards that control the Dawngate’s functions, and in the beginning of the game, these are a set of Devils that oppose you. There is an encounter with them where you must start the door to open. Furthermore, they try to hinder you by using different ways of attack and the time limit in which you can close the door. After that, proceed through the Dawngate and talk to Oznim, an elder Grand Duke of the land. He is an old friend of yours, but will not treat you like the rulers of the other lands. Continue to the eastern gate, where they will be the only ones you meet at night; the gate is a place to open and close. First, talk to two Grand Lords that request you to become the next leader of the land. In other words, you can become a Lord. If you become one, you can advance through the party and become a Pharaoh, and gain the right to access the Hall of Legendary Heroes. The castle that are in front of you are located in the land of Tarnished. Tarnished is a region that is full of Elden Runes. They are difficult to draw, as they glow differently in different colors. If you draw a rune of a different color than its color, it will be immediately consumed. Before you draw a rune, you will need to enter the Runesmith’s Guild, and then have your grandfather tell you which Rune to draw. If you don’t have the correct Rune, your grandfather will not give it to you. However, if you draw the incorrect Rune, your grandfather will give you a tip of how you can improve, such as making your equipment stronger. You will be able to acquire different shields and weapons, which can be customized. You can also upgrade your equipment, as they have different levels. To activate the different levels, you need to have a certain item. For example, you can have a high-level sword

This is all right, but that

applied to a mother is no authority to deprive a child of its parent, or to approve a policy which deprives a child of its parent. This case, too, cites the case of Hoke v. Hoke, 210 Ark. 270, 195 S.W.2d 1016, which we think is totally in error and is manifestly not in point, as it is based wholly on the proposition that a parental duty devolves upon a parent as well as a wife as at common law.
