ID Harddisk Cleaner Crack + Activation Code For PC

ID Harddisk Cleaner Crack Keygen is a utility program, specifically designed to clean-up and organize your disk space. It removes useless, garbage files, as well as duplicated ones which inhibit system efficiency. Here are some key features of "ID Harddisk Cleaner Crack For Windows":

- Scans thoroughly your computer to search for unwanted and unused files as well as for error-making garbage ones. It searches across your disk and produces instant and efficient results.
- Detects duplicated DLL files by checking their content and registration date. ID Harddisk Cleaner searches for true duplicated files finding same-name files and zero-length ones.
- Alerts you whenever it encounters garbage, duplicated or useless files and lets you decide how to handle them. You can automatically set it to erase garbage files.
- Ignores files normally expected to be duplicated, such as system files. ID Harddisk Cleaner recognizes important system files and sets them apart from erroneous duplicated ones and preserve their content intact.
- Immunizes most popular CLSID locations. ID Harddisk Cleaner offers protection by recognizing and taking action towards garbage items and dangerous files only.
- Organizes your space disk by cleaning, removing and erasing items. It enables the system to run smoother, faster and more efficiently by removing useless files.
- Restores of all the deleted files at your request. ID Harddisk Cleaner registers all modifications and past actions and makes reversibility of erased-files possible at any moment you desire.
- Tracks down all files and folders you may be searching for by filtering your search depending on file type, total space wasted and the number of duplicates.
- Ensures the most accurate results by using MD5 Checksum capabilities. ID Harddisk Cleaner tracks down all items that are unnecessary and that only take space on your disk with no reason.
- ID Harddisk Cleaner has a simple, convenient graphic interface and is very easy to use. It requires minimal disk space to operate and quickly cleans and secures all parts of your disk.

Limitations: □ 300 Mhz processor □ 3 MB hard drive space □ 128 MB RAM □ Supports Internet Explorer

Limitations: □ 15 days trial ID Harddisk Cleaner Website: ID
